

The Physics of Life Experience 2017 - Application

Name

Street Address/City

School

Preferred Email Address

Highest education degree achieved/achieving (include graduation year)

List of subjects you teach

List of professional development workshops you have attended

Why are you interested in attending POLE 2017?

A goal of POLE 2017 is to allow teachers from different specialties (within or between schools) to work together to develop biophysical lessons and implement them in the classroom. How would you assist this goal to be met at your school?

Please list one or two colleagues, specializing in physics, biology, or chemistry, with whom you would like to work during POLE 2017 (preferably colleagues with a different specialty than yours). Please provide their full name and email address.

Lesson dissemination and critical evaluation is vital to advancing science. How do you plan to share your POLE 2017 lessons with the greater population of high school instructors?

Please submit this application to Katie Molohon at molohon1@illinois.edu by March 20, 2017.
